

September 1, 2008

Dear Friends,

The Safeway Study-Group has finished its work and presented its alternatives to the city council and planning commission last week. The committee put a lot of work into the results they brought forward. There are a few council members who want UNDERGROUND PARKING in the new Safeway development. If, for example, three out of the five council members vote for underground parking, that is what Safeway will be asked to do. I think underground parking is unsafe and I personally will not use underground parking. If there is not enough parking around the store, I propose the developer does parking on the roof. My preference is, however, for plenty of visible parking ON the Safeway LOT.

You can help now BEFORE IT IS TOO LATE. If you do not care to use underground parking, I would really appreciate if you would email our city council and tell them what you want: A nice new, life-style Safeway with plenty of visible parking and PLEASE DO NOT WASTE MONEY ON UNDERGROUND PARKING. You need not identify yourself. Neighbors in San Mateo, San Mateo Park and Hillsborough will all use the new store, if we can get it built, so your friends or connections outside of town can also help if they **let the Burlingame city council know the need for a Safeway in town that we can all use and enjoy.**

So help right away. **Email council@burlingame.org**
Or write a letter. But the email , if sent, will go to every councilmember immediately.

Thanks so much for helping with this , a wish, indeed a need of so many of us.

Cordially,
